

Title: COVID-19 VIRUS - GARBAGE DISPOSAL

Subject:

Please be advised that due to this COVID-19 virus still growing day by day I have decided not to provide the garbage key to any patron anymore as this is dangerous and can cause the spread of germs. I am therefore requesting all patrons to please place their garbage bags in the small disposal container next to the metal garbage bin including their dog poop bags. See image.

Please do not leave any garbage or poop bags on the ground in front of the garbage bin. This is very unsafe and inconsiderate towards others and if you get caught disrespecting this very serious request the Authorities will be contacted and you will be reported.

Please follow the guidelines as shown below for SAFE Waste Disposal.

Please remember this is for all of our safety including the people that have to discard of your garbage bags. We are all in this together.

“Your cooperation and understanding is appreciated”

Thanking you kindly,
By Management.
